ERP MODERNIZATION PROGRAM

Chances are, your institution is not making the most of its ERP platform. Modernizing and optimizing the way your institution uses its ERP tools can be a catalyst for digital transformation and improved student success, and enable you to get more out of the expensive investments made in these complex platforms. As a nonprofit partner of the higher education community, Edge can provide an independent third party assessment, evaluation, apply upgrades, and provide optimization services to help you do more with your current system.

To start, we will evaluate current usage of the ERP system to understand the impact of system usage and business processes on student success. The Edge team has a deep knowledge of systems and processes including:

- ▶ Enrollment Management
- ▶ Admissions
- ▶ Advising
- ▶ Records and Registration

- ▶ Office of Information Technology
- ▶ Sponsored Programs and Grants
- ▶ Human Resources
- ▶ Institutional Research

- ▶ Payroll
- ▶ Financial Aid
- ▶ Bursar and Collections
- ▶ Fiscal Services

The outcome of the assessment will be a detailed report including recommendations for improvement. These typically include:

- ▶ Identifying underutilized ERP components
- ▶ Identifying areas where business process is not aligned with ERP capabilities
- ▶ Identifying gaps in knowledge and/or reporting between departments
- ▶ Identifying training needs to enhance your team's ERP usage
- ▶ Identifying integration synchronization between your ERP and third-party applications

Edge has the ability to impement ERP improvements for all modules. With a solid understanding of your institution's strategic goals and the detailed assessment findings at our fingertips, we will work to reengineer business processes, make better use of ERP capabilities to drive value, and train your teams to enhance their ongoing experience using the ERP platform. Edge can also discuss migration strategies to move your legacy applications to the cloud.

**READY TO IMPROVE YOUR INSTITUTION'S USE OF ERP?
EDGE OFFERS A COMPLIMENTARY ASSESSMENT TO GET STARTED.
