

Digital Learning & Collaboration Services

Edge Digital Learning and Collaboration services provide expertise in instructional design, educational technology, and project management to create innovative, powerful learning experiences. We provide the resources and capabilities every institution needs to enhance student engagement and facilitate authentic teaching and learning—anytime, anywhere.

SERVICES INCLUDE:

INSTRUCTIONAL DESIGN

- **Course Management:** Standard course updates from term-to-term (date changes, link checks, etc.)
- **Curriculum Design & Development:** Work with faculty to design/redesign courses
- **Reusable Learning Objects:** Creation of high quality learning objects for use in online curriculum or training (Articulate, Captivate, etc.)

PROGRAM DEVELOPMENT

- **eLearning Strategy:** Collaborate with stakeholders to develop online learning strategic plans
- **Planning & Evaluation:** Assessment of existing online programs/departments to provide analysis and assistance

INSTRUCTIONAL TECHNOLOGIES

- **Technology Support:** Helpdesk incident management for campus educational technologies
- **Implementation:** Project management for instructional technology implementations and transitions
- **Training:** Training program development and delivery on enterprise instructional technology solutions

COURSE ASSESSMENT & EVALUATION

- **Course Evaluation:** Evaluate existing online courses against industry standard rubrics (QM, OSCQR, etc.) or custom rubrics
- **Quality Assurance Planning:** Collaborate with campus leadership to develop and implement evaluation and revision cycles for online programs

FACULTY/STUDENT DEVELOPMENT

- **Training Programs:** Development and delivery of custom training programs for faculty and/or students
- **Badging/Certifications:** Design and deliver custom badges and certificates for trainees

LEARNING SPACE DESIGN

- **Space Design Assessment:** Evaluation and analysis of campus learning spaces in preparation for renovations and updates
- **AV Classroom Installation:** Installation of 21st century video classroom technology to improve the student learning experience

TAKE THE FIRST STEP TOWARD ACCELERATING THE DEVELOPMENT OF INNOVATIVE, ENGAGING LEARNING EXPERIENCES AT YOUR INSTITUTION.
